

Hi, my name is **(your name)** and I am your constituent.

I live in **(your town)** and I have a disability.

I need to talk to you about the changes to Medicaid that both houses of Congress are working on. I know a bill passed in the House of Representatives in May and is right now being discussed in the Senate.

I need **(Legislator's My Medicaid My** to know that Medicaid is very important to me. Medicaid provides me with:

I don't know what I would do if my Medicaid was cut or reduced in any way. I might have to move into an institutional setting to receive the care I need since any cuts to Medicaid would make it very hard to get care in the community. I want to live, work, and receive care in my community.

I am a very concerned that Per Capita Caps, which limit funding to states, will mean that I won't have my Medicaid or get less support through my Medicaid in the future.

Please tell _____ to protect my Medicaid. Medicaid is my lifeline for living in the community.

Thank you,
